

About the Journal

Bioscience Biotechnology Research Communications, BBRC is a broad based internationally indexed official publication of Society for Science & Nature (SSN) since 2008. The international journal publishes peer reviewed original research papers, exciting reviews and short communications in basic and applied areas of life sciences and the upcoming state of the art technologies, including Biology and Medicine on a fast track. The young editorial team of BBRC tries hard to provide a high quality flawless format of scientific communication for the popularization and advancement of science, worldwide. During these years more than 500 peer reviewed research papers of very high quality have been published in BBRC and authors like Kiran Shaw Majumdar of Biocon, Bangalore have contributed to BBRC helping it achieve high readership in a short span of time. Reviewing the published research articles, it becomes evident that on an average, about 7 papers out of 10 are subjected to healthy revisions in BBRC making quality reading. We owe this achievement to our reverend reviewers! We hope the standards set by BBRC will improve further making this international journal unique and easily accessible to the scientific fraternity across the globe. In its eighth year of successful existence as a scholarly publication, BBRC has now become an open access journal.

Scope of the Journal

The journal offers an international peer reviewed fast track platform, encouraging contributions from research students, faculty members and academicians from developing countries. Manuscripts in the following areas of Bioscience and Biotechnology are considered for rapid publication:

- Biology, Botany, Zoology, Ecology and Aquaculture
- Biophysics, Molecular Biology, Genetics and Genetic Engineering
- Biotechnology, Bioinformatics, Proteomics and Nanotechnology
- Microbiology, Pathology, Immunology and Diagnostics
- Physiology, Endocrinology, Biochemistry and Biochemical Engineering
- Environmental Sciences, Toxicology & Environmental Engineering
- Biology and Medicine including Nutrition.
- Diseases, Pharmaceutical Sciences and Public Health.

On Piracy, Pilferage and Other Human Academic Malpractice

Bioscience Biotechnology Research Communications strongly advocates the policy of outrightly condemning and reporting of any academic malpractice with regard to manipulation, copying, pilfering or pirating of any research material or data in practice and writing thereof. It is the duty of all our revered contributors of BBRC to kindly verify the authenticity of their scientific text in all of their manuscripts with regard to standard of scientific research done worldwide. Our reviewers are also being requested to report any of such discrepancies immediately so as to curb this malady. Any case of any kind of piracy detected, will be liable for legal action as per prevailing laws. Articles found with any form of plagiarism will be liable for immediate retraction from the issue after proper confirmation, following standard publication norms.

On Ethical and Animal Welfare Issues

Bioscience Biotechnology Research Communications requires that the experimental conditions under which human and animal assays and tests are performed are as per standard protocols used worldwide. Studies on animals must comply with the prevailing standards of animal welfare according to Indian Council of Medical Research Guidelines in India and likewise following similar condition following elsewhere. Authors must make it clear that the procedures they used were as humane as possible and have been complied with the guidelines. Studies involving human subjects must be carried out with the formal approval of the relevant Ethical Committee and evidence of such approval must be provided along with the submission.

Editor, Editorial Board and the Publisher of Bioscience Biotechnology Research Communications take no responsibility for inaccurate, misleading data, opinion and statements appeared in the articles and advertisements published in this journal. It is sole responsibility of the contributors and advertisers. No part of the journal can be reproduced without the written permission of the Editor, who also holds the copyright of the Bioscience Biotechnology Research Communications. It is also notified that if any dispute arises regarding the journal, the matter will come within the jurisdiction of Bhopal.
