

Web of Science, Thomson Reuters ISI Clarivate Analytics (2020) Journal Metrics For *Bioscience Biotechnology Research Communications*

Data from Clarivate Analytics Web of Science Thomson Reuters ISI website August 2020

Citation Metrics

Usage: More than 22000 Annual / Download Views

Citations = 3523

Publications = 2321

JIF (5 year) = 1.52 JIF (2020) = 0.54

Speed / Acceptance

- 20 days average from submission to first decision.
- 45 days average from submission first post –review decision
- 30 days average from acceptance to online publication
- 40 % acceptance rate

Understanding and using journal metrics

Journal metrics can be a useful tool for readers, as well as for authors who are deciding to publish their hard earned data. Authors must check the Journal’s Metrics with authentic sites, like that of Clarivate Analytics, Web of Science, Thomson Reuters and Scopus, Pub Med etc the world’s largest authentic data bases of good journals.
